The **Cobra Motorized Crank** is a revolutionary product, a modern solution, economic opening and closing effortless for retractable awnings.

We emphasize how uncomfortable and annoying it is to open and lower down awnings at home or business places with a traditional handle, cheap and easy it is with the Cobra crank.

With a Cobra crank you can meet the same needs as many as all the awnings you have.

In USA there is a very strong housing market at which we see great business selling.

In USA there is also a big area that has no seasoning.

The Cobra crank is a perfect product for the DIY market.

We are the only worldwide producers of this unique product.

MAIN FEATURES OF THE COBRA CRANK

- Universal hook for standard retractable awnings
- Charging battery is as simple as charging a mobile.
- Quick and simple use.
- Powered wireless system.
- Recharges in 6 hours.
- Plastic top quality shells ABS/V0.
- Two extensions included for different use heights
- CE , WEEE (recycling), RoHS (contaminants) certifications
- 2 Year Warranty.

Constant evolution

- Constant research developments in its different aspects.
- Smaller and longer battery life
- LEDs of battery status (under load).
- Low dimension and weight.
- Design
