Drop down valance

From £2,104.99

A great design for dealing with the problem of shading from the sun when it is low.

When the sun slants under the awning this extra length valance can be dropped down by remote controlled motor. It provides shading and privacy at the touch of a button.

Valance drop length 1.6m

Available in a very wide selection of Acrylic fabrics.

Powder coated casings in standard colours or optional colours from the RAL range for an additional charge.

Awning lights and heaters are also available.

When closed the awning is fully protected from the elements in a metal casing which helps prolong the life of the fabric.

- Manually or electrically operated using a Somfy motor and remote control
- 5 year warranty
- 2.05m - 6m widths
- Max projection 3m

Please note: The price is for the awning and valance, the valance itself is not available as a separate purchase
