

5 year  
warranty

# External conservatory

From £1,806.99

The most effective shading for all conservatories is from the outside. Once the heat from the sun has hit the glass roof, it penetrates the interior. Internal shading is helpful to reduce the light, but will do little to reduce the heat.

This external awning will do both jobs. Extending up to 1.25m over the end of the conservatory, it can produce even greater shading. Using strong guides, the awning fabric slides down fixed rails.

- Frames are powder coated in a small range of colours
- Electric operation
- 5 year warranty
- 2m - 10m widths
- Max projection 6m
